

Product Information

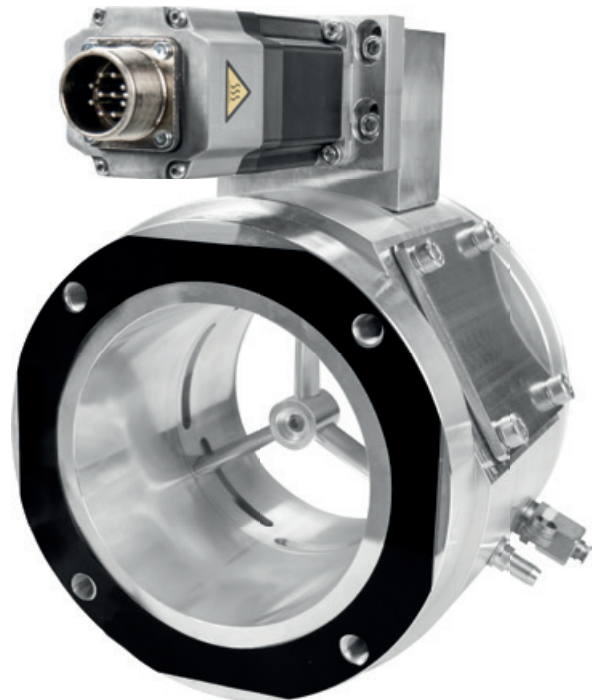

VariFuel2/VariFuel2+ Air/Gas Mixer

New Gasket for Outlet Flange – Series 200-1x0

MOTORTECH now supplies all VariFuel2 and VariFuel2+ air/gas mixers of the 200-120 series with a new gasket on the outlet side. The new gasket is made of the same material as its predecessor and has an improved fit when mounted on the outlet flange due to the new outer contour.

General Features:

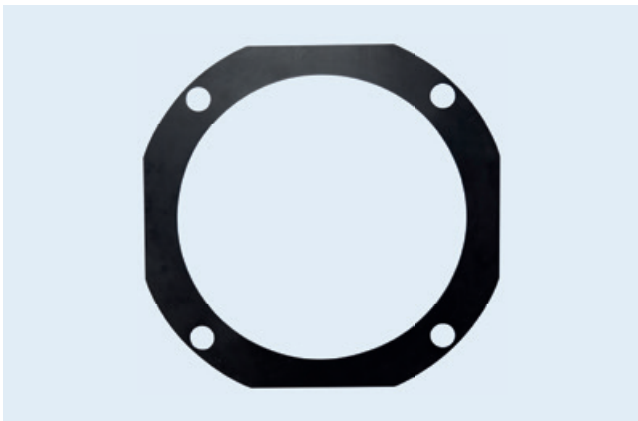

- Precisely fitting gasket for outlet flange
- New contour improves sealing and handling during assembly
- Absolutely compatible with the previous version and therefore usable as spare part for all air/gas mixers of the series 200-100 and 200-120
