Current Delivery Time Information

Longer delivery times for many items

At the end of July, MOTORTECH informed, via Sales Bulletin no. 25/2021, that due to the global challenges in material procurement and an unusual increased in demand, resulted in an increased delivery time for many of our products.

Our supply chain and production teams have been working hard for many months to tackle and improve this situation. For many critical sub-components, we were already able to secure a second and third supplier, who combined can increase the material availability. At the same time, we have been able to expand our production capacity for our popular high volume products by at least 30 %.

Despite our efforts, the current delivery time for many items still remains 12–16 weeks therefore please take this into consideration when planning your projects.

This situation will continue at least until the beginning of 2022. To avoid project delays for yourself and your customers, we ask you to plan ahead as long term as possible.

As soon as we have news, we will inform you immediately.

Thank you for your understanding.

! Important Information

Please note the current delivery times of 12–16 weeks when ordering from MOTORTECH. By sending partial shipments, faster delivery may be possible.

DISTRIBUTION

Customers / others	Yes
Representatives and Sales Partners	Yes
OEM partners	No
