

Discontinuation of the MOTORTECH AIO Visualisation TEM Replacement for MWM[®] Gas Engines

MOTORTECH announces the discontinuation of the “Visualisation TEM Replacement” for MWM[®] gas engines.

The product consists of an 18" panel PC and the associated CHP control visualization for MWM[®] gas engines and will be discontinued without direct replacement.

Product support is guaranteed until 31/12/2023. There will be no further development during the support period.

Part number: P/N: 63.50.130-A

The IntelliSysGas products and associated IntelliVision displays are unaffected. These products are still available and will be fully supported.
