

Magnetic Pickup

P/N 66.60.011-180

Dimensions

- Thread size 3/4-16 UNF-2A
- Thread length 45.72 mm (1.8")

Connections

- Connector Packard Weather Pack, 2 pole, female
Pin B turns positive at the transition from non-ferromagnetic to ferromagnetic material.
- Cable length 330 mm (13")

Triggering

- Possible triggers Holes, pins, teeth, screws
- Distance for triggering 5.1 mm (0.2")

Mechanical Data

- Material of case and nut 300 series stainless steel

Climatic Environmental Conditions

- Permissible temperature range -40 °C to +125 °C (-40 °F to +257 °F)

Electrical Data

- Resistance 3,100 Ω ± 10 %
- Inductivity 1,500 mH ± 20 %
- Output voltage See diagram
